This Directory is designed to give information of interest to potential employers of Council doctoral fellowship holders. It includes biographical information on about one half of the Council's doctoral award holders. The students listed are in the third to sixth year of their PhD studies. Most have indicated that they will be available for employment in the near future.

Award holders are listed by academic discipline. (The page reference for each discipline is in the table of contents.) The information on each award holder is based on his reply to a questionnaire, a copy of which is reproduced in the Appendix. The key for the numbers used in coding each reply is on page 3. Prospective employers should write to the address given at the end of each entry.
